## **CANES Announces Head Office Move to New Location to Support Growth**

CANES Community Care will be moving its head office to the Pearson Corporate Centre located at 10 Carlson Court, Etobicoke, effective August 1st, 2018. CANES will be expanding from 8,650 square feet to over 15,000 square feet at the new office space to accommodate additional training facilities, meeting rooms and provide capacity to support the organization's growth and expansion. The new office has been designed to offer a more open and collaborative space to increase efficiency for CANES' current and future staff.

"This marks a significant milestone for the agency and it is an exciting time for our staff. We were very fortunate to find this office space located just minutes away from our current office location. We really wanted to limit the impact that relocation could have on our clients and employees. This space meets the future needs of the agency beyond 2020 and reflects our innovation and technology advancement goals to further promote operational efficiencies," stated Gord Gunning, CEO.

"We could not have found a better location for our team to grow and develop to keep pace with our clients' needs so that we can continue to deliver exceptional programs/services. This location is easily accessible and offers many amenities that will further support our wellness programs for our staff," stated Mike Valkama, COO.

For more information on our head office move, please visit our website at: [www.canes.on.ca](http://www.canes.on.ca) or contact one of us via the information provided below.
